THE ENGLISH & IRISH REGISTRY

The Donkey all Breeds Society of Australia Inc [DABSA] was originally called The English and Irish Donkey Society of Australia and was founded in late 1976 by a small group of enthusiasts for the breed who had either imported pure-bred donkeys from England, Ireland or New Zealand or who had the first generation progeny of these donkeys.

In addition to registers for Studbook [100%] and part breeds a supplementary register of Identification [ID] jennies was started. This was necessary as there were so few 100% jennies imported in the early days of breeding.

The English Irish donkey is strong and sturdy, is very willing, with an excellent temperament. The register has [5] grades of donkey these being 100%, 87.5%, 75%, 50% and identified [ID jennies]. To obtain a 50%, jennies must be identified [ID] recorded, and bred with a registered 100% jack. The general principle is that to upgrade you need to use a registered 100% jack or jenny.

Progeny outcomes :-

ID jennies must be bred with 100% jacks to obtain 50%

50% + 100% = 75%

50% + 87.5% = 50%

50% + 75% = 50%

50% + 50% = 50%

75% + 100% = 87.5%

75% + 87.5% = 75%

75% + 75% = 75%

87.5% + 100% = 100%

87.5% + 87.5% = 87.5%

100% English or Irish Donkey is defined as

- An English or Irish donkey imported from England or Ireland
- Or Progeny of two such donkeys
- Or Progeny of two English/Irish donkeys who are both registered at 100% in DABSA Stud Book
